

PROJECT MANAGEMENT

Module - 4

Why Project Management is Important ?

Project Management Software

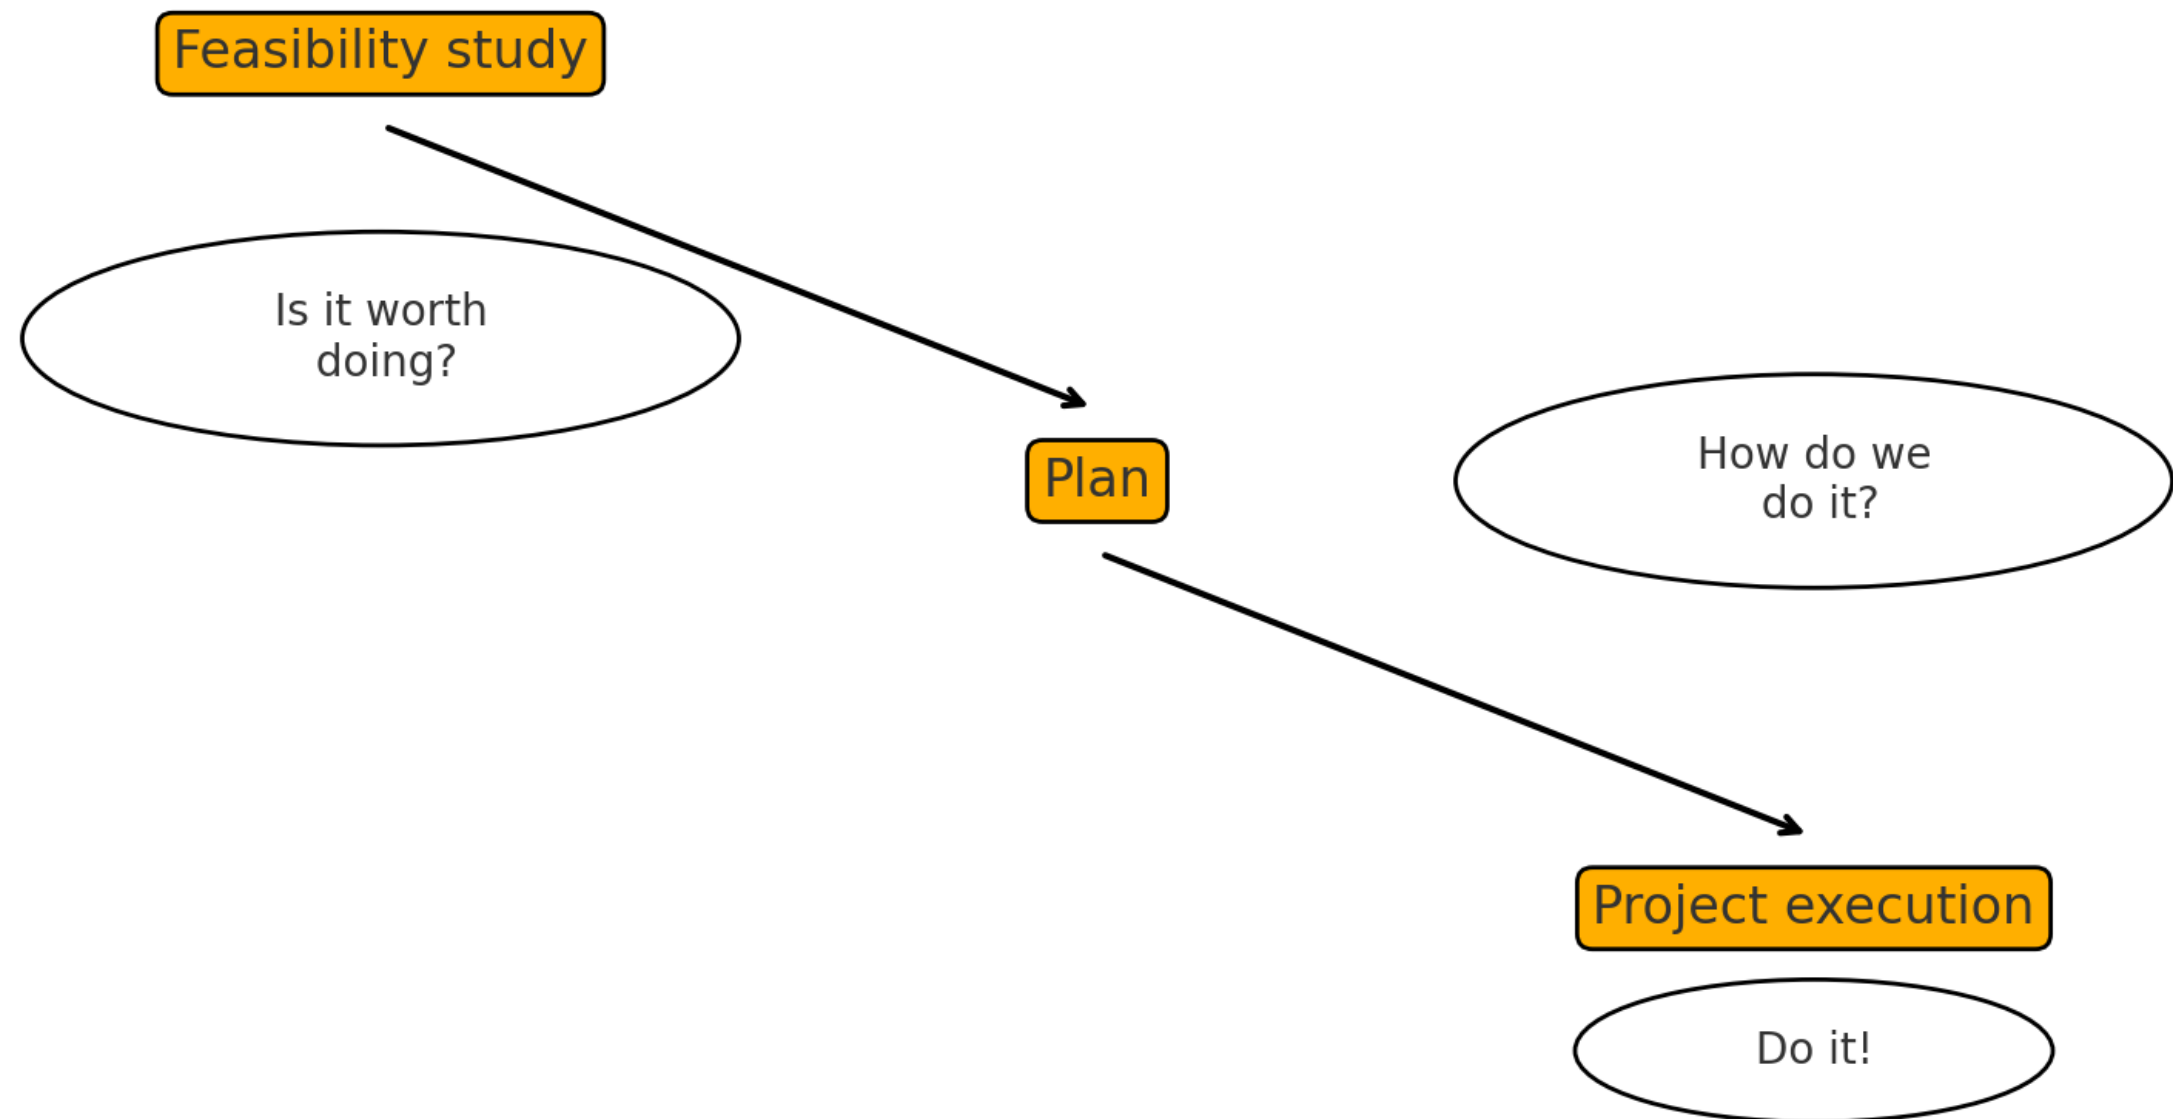

Contract Management

- **Draft and Negotiate:** Create clear contracts and negotiate fair terms for all parties involved.
- **Monitor Performance:** Regularly check that everyone is meeting their obligations as per the contract.
- **Manage Risks:** Identify and address potential risks early to avoid issues later.
- **Ensure Compliance:** Follow laws and regulations, and keep detailed records of all contract-related activities.

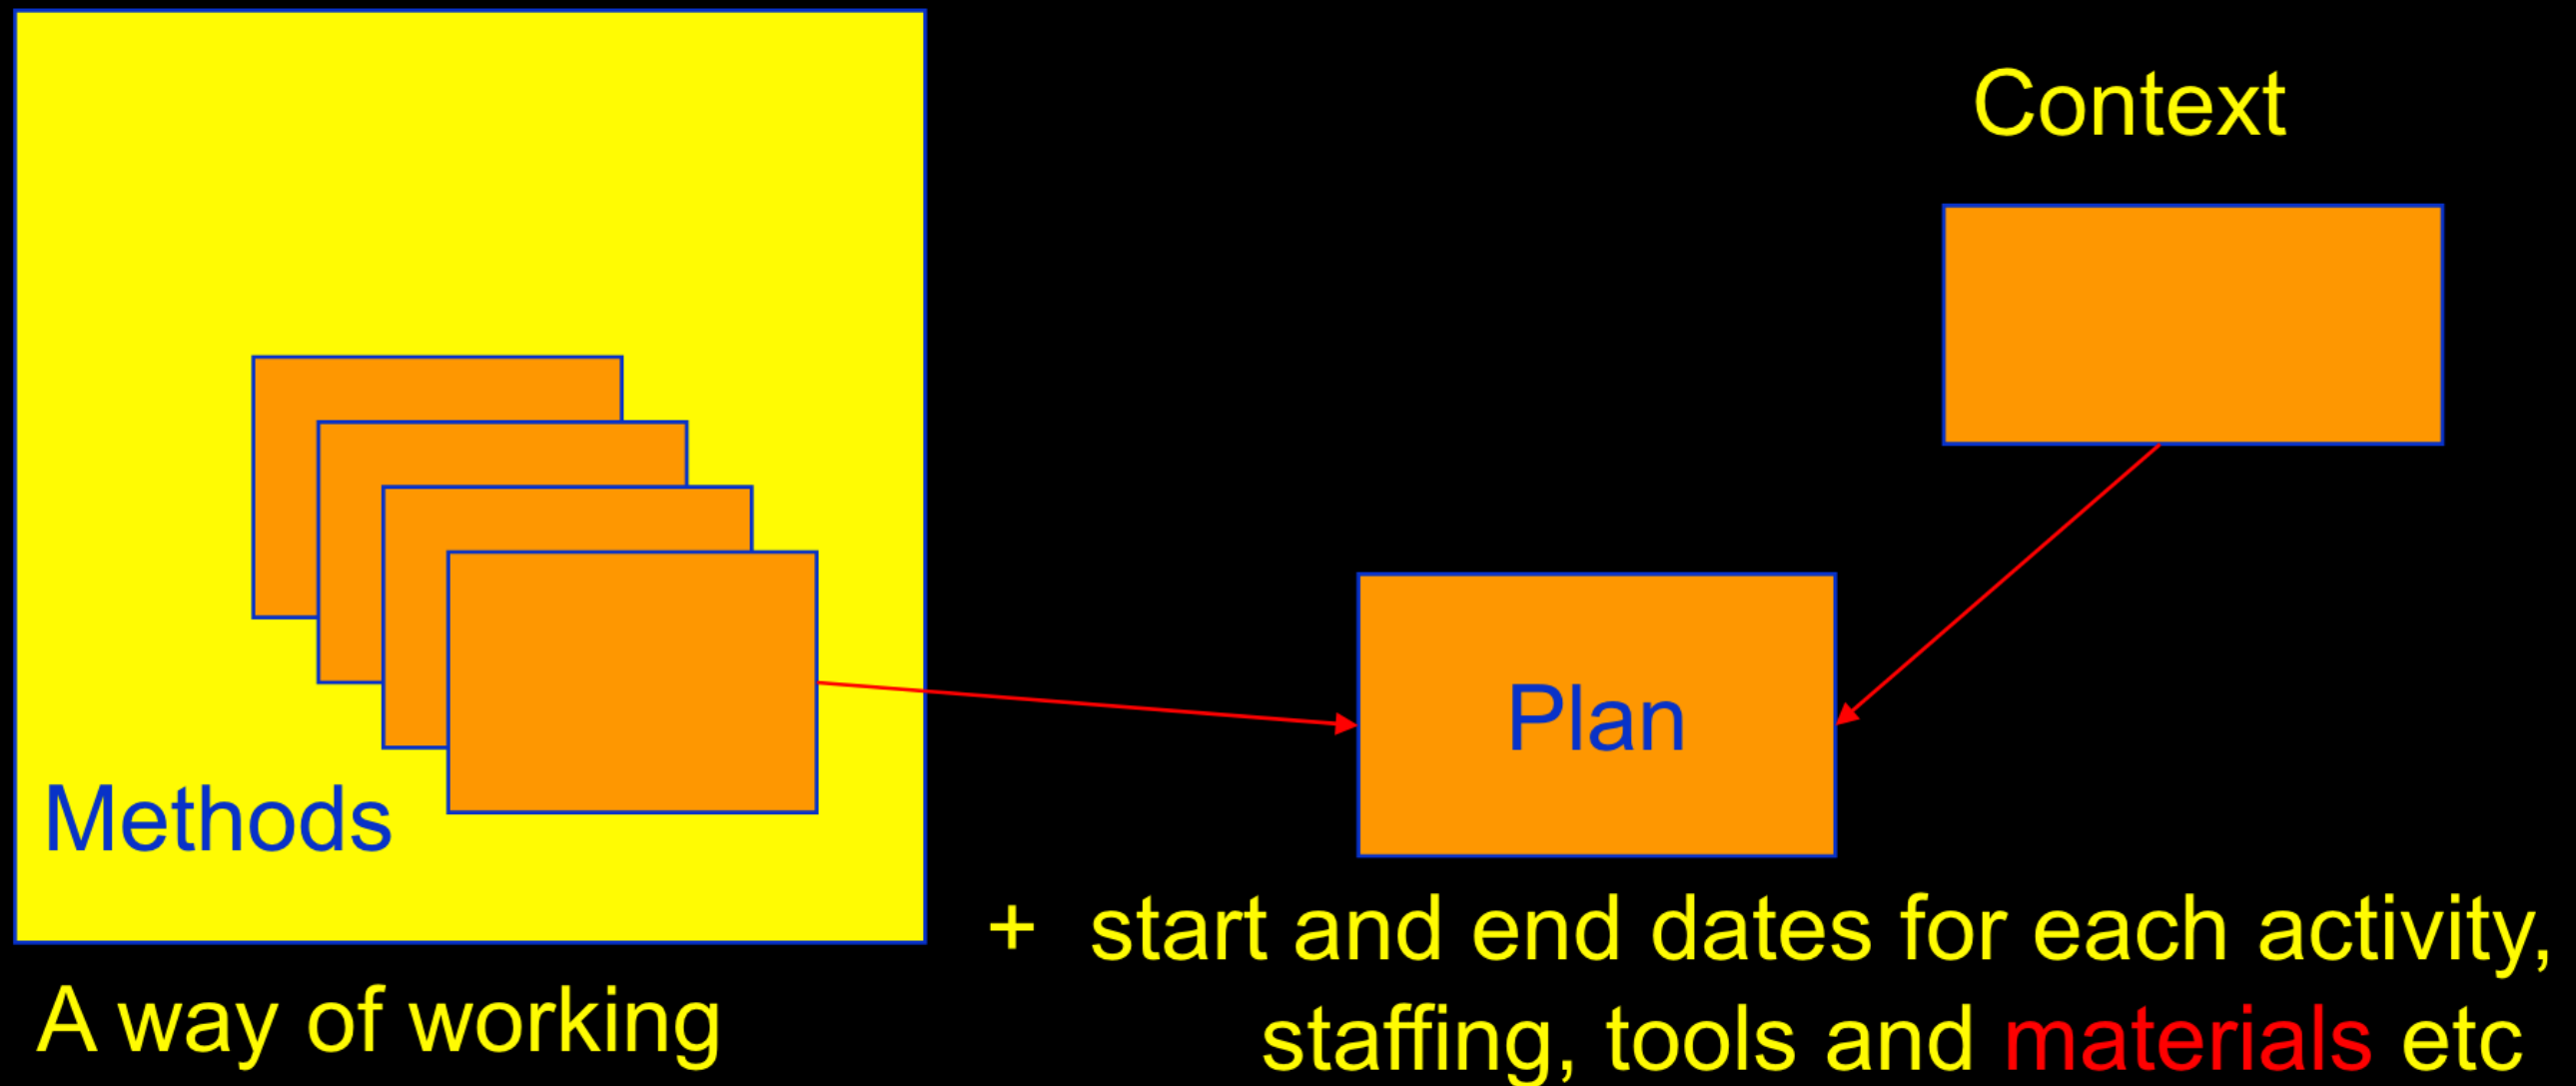

Activities Covered by SPM

Plans, methods and methodologies

Methodology = a set of methods
